Dollars raised stay local and supports each hospital's most urgent needs, whether that's providing care to children without insurance, investing in research that discovers life-saving treatments and cures, training the next generation of doctors and nurses, or offering families comfort and peace of mind during the most trying moments of their lives. Changing the health of even one child or family creates a ripple effect felt by communities for years to come. When we change kid's health, we change the future—for all of us.
